Professional Summary

Software Developer with 2+ years of experience in building web applications using React.js, TypeScript, Node.js, PostgreSQL, and MongoDB. Experienced in developing Asset Management Systems, ERP applications, and Sports ERP platforms. Skilled in frontend development, REST API integration, state management using Redux, and responsive UI design. Passionate about building scalable and user-friendly applications.

Technical Skills

- Frontend: React.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, PrimeReact, Redux
- Backend: Node.js, Express.js, REST APIs
- Database: MongoDB, PostgreSQL
- Tools: Git, GitHub
- Methodologies: Agile, Scrum

Experience

- **Mazeworks solutions Pvt Ltd** Feb 2024 - Jun 2024
Software developer - Intern
 - Learned React.js fundamentals, Git, and GitHub workflows.
 - Gained experience in code structuring, project organization, and development best practices.
 - Collaborated with development teams in an Agile environment and contributed to project tasks.
 - Improved problem-solving, debugging, and teamwork skills through real-world project experience.

- **Mazeworks solutions Pvt Ltd** Jun 2024 - Feb 2026
Software developer
Technologies: **React.js, TypeScript, Redux, Tailwind CSS, PrimeReact, Node.js, Express.js, MongoDB**

Asset Management & Tracking System for managing assets, inspections, and work orders.

- Built responsive and reusable UI components using React.js, TypeScript, and PrimeReact.
 - Implemented Redux state management and integrated **REST APIs** for seamless data handling.
 - Collaborated with backend teams and participated in requirement analysis, testing, bug fixing, and feature enhancements.
 - Designed and developed responsive dashboards for ERP applications using React.js and Tailwind CSS.
 - Created reusable dashboard components, reports, and data visualization interfaces.
 - Worked closely with UI/UX designers and stakeholders to deliver scalable and user-friendly solutions.
- **Jeff's Group of Companies** Mar 2026 - Present
Development Executive
Technologies: React.js, Node.js, PostgreSQL, JavaScript, TypeScript, REST APIs, Git

Sports ERP Platform

- Developing a comprehensive **Sports ERP** platform for managing athletes, coaches, teams, tournaments, training programs, and performance analytics.
- Working on both Frontend and Backend Development using **React.js, Node.js, and PostgreSQL**.
- Designing and implementing scalable application architecture and business workflows.
- Building REST APIs and backend services to support core ERP functionalities.
- Designing and optimizing database schemas and queries in PostgreSQL.
- Collaborating with cross-functional teams to deliver new features and improve system performance.
- Providing technical guidance and mentoring team members on development best practices.
- Participating in project planning, requirement analysis, code reviews, and sprint execution.
- Contributing to product decisions and technical architecture discussions to ensure scalability and maintainability.

Key Projects

- **Asset Management & Tracking System**
Tech Stack: React.js, TypeScript, Redux, PrimeReact, Node.js, Express.js, MongoDB
- **Sports ERP Platform**
Tech Stack: React.js, Node.js, PostgreSQL
- **ERP Dashboard Applications**
Tech Stack: React.js, Tailwind CSS

Certificates

- **Web design** - Asia University.
- **JavaScript** - Infosys Springboard
- **AWS for Beginners** - Great Learning
- **Agile** - Coursera

Education

- **Kalasalingam Academy of Research and Education** 2020-2024
B.Tech Information Technology
8.36

Academic Credentials

- **HSC** - 63.8% in 2020
- **SSLC** - 83.6% in 2018
